

new 'Talking with Pictures': Photovoice

Learn about an innovative way to engage patients and the public in health!

An Online Professional Development Course: 5-Sessions, 2 hours each, (July 18th – July 28th) and (July 30th – August 8th, 2019)

For 25 years, "Photovoice has involved patients, youth, families and communities in exploring personal and public health. Photovoice is a participatory approach to photography, discussion, writing and outreach for patients/clients to investigate their experiences, heal, and collaborate with clinicians and others for change. Patient photographs can illuminate factors that influence access to healthcare and quality of care, and contribute to decision-making in respectful ways. Photovoice is an innovative approach of value to clinicians and patients/clients, as well as researchers, policymakers and communities. This non-credit, online professional development course provides hands-on experience with the Photovoice method and steps

Upon course completion, participants will receive a Training Certificate and have the knowledge, skills and tools to implement their Photovoice Plan. The interactive online format provides hands-on experience with adapting Photovoice to clinical care, programming, evaluation, and research.

SESSION TOPICS INCLUDE

- Hands-on experience with Photovoice steps and adapting to different contexts
- Ensuring safety and confidentiality
- Interpreting Photovoice data and reaching audiences
- Developing a Photovoice Plan

WHO SHOULD ATTEND

- Mental Health Professionals, Social Workers, and Psychologists
- Evaluators, researchers, rehabilitation clinicians
- Educators, activists, artists, and community organizations

(Beginning, Intermediate, and Advanced Levels)

Testimonials

Fabulous course that I highly recommend! (Boston College)

Well designed, practical, engaging, and supportive. It was great! (University of Minnesota)

A fantastic introduction to the methodology. (Colombia)

I came to the course with very little foundational knowledge about Photovoice; I left feeling confident that I could proceed on implementing my own Photovoice project. (St. Leo University)

I really enjoyed this course. It provided valuable information that will assist me in future projects. (Fielding Graduate University)

After taking this course, I feel much more prepared to plan and conduct my Photovoice study for my Master's thesis, and also feel less alone in doing so. (Seoul National University)
